<p>Targeted Inmate/Resident/Detainee Interviews</p>	
<p>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>1</p>

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

<p>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>

---	---

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>I interviewed all inmates, all staff present at the facility, and reviewed all screening documents of inmates present which corroborated that there were no inmates with this characteristic to be interviewed.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Yes

No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

Yes

No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

Yes

No

<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>

Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
Total	0	0	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	0

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail has a very thorough policy. Policy P-601 Prison Rape Elimination Act follows the guidelines of the PREA standards and they have appointed a PREA Coordinator who has been working to ensure that every standard is addressed. She has the authority to develop and oversee the efforts of the facility to prevent, detect, and respond to sexual abuse and sexual harassment. The PREA Coordinator with the support of the Sheriff and the Assistant Jail Administrator have been committed to implementing PREA standards into the jail.</p>

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail does not contract with other entities for the confinement of inmates

115.13	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the Bottineau County Jail policy, the organization structure, the staffing plan and verified the staffing levels through the schedule that was provided and verified through direct observation while on the facility tour. The Bottineau County Jail has strong, consistent leadership and a positive culture. The inmate interviews reinforced this positive culture. The Bottineau County Jail is a very small, newly constructed jail. The Sheriff directly oversees the jail operations and is assisted by the Jail Supervisor and the PREA Coordinator. There are eight correctional officers and four part time correctional officers. They require at a minimum staffing level two officers on duty each 12-hour shift. When female inmates are in custody, they require one male and one female officer on duty. Currently there are more female correctional officers than male correctional officers on staff.</p> <p>The auditor reviewed the jail log and verified that unannounced rounds are conducted as required by the standard by the Sheriff, Jail Supervisor and PREA Coordinator. Their policy prohibits staff from alerting other staff members that PREA unannounced supervisory rounds are occurring. Correctional officers conduct rounds each hour and are required to swipe their device in specific locations throughout their rounds to log them in their guard tour system. The supervising staff on duty is required to conduct and log one supervisor's round in each 12-hour shift. The guard tour system alarms if these rounds are not conducted as scheduled. There are multiple cameras throughout the facility that are monitored both by the correctional staff in the control room and the law enforcement dispatch staff. Camera systems can be viewed by the Sheriff, the Chief Deputy, the Jail Supervisor and the PREA Coordinator as well.</p> <p>They complete an annual assessment to assess, determine, and document whether adjustments are needed to their staffing plan. There are no documented incidents of falling below their minimum staffing levels. However, it is a very small facility with a very small workforce. This past year they struggled with hiring and closed the jail for six months.</p>

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail does not house youthful inmates.

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Bottineau County Jail prohibits cross gender searches of inmates. There are female staff on duty to conduct searches of new female admissions in booking. All interviews with both inmates and staff confirmed the practice. The facility prohibits examination for the sole purpose of determining gender and staff are knowledgeable of correct search procedures for transgender or intersex inmates. If the offender’s genital status is unknown, it is determined during conversations with the offender, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Staff are trained in cross-gender searches and were able to demonstrate the correct search procedure to the auditor. The facility does not conduct cross gender strip or pat down searches, but policy requires that if this to occur to document it with justification. There were no documented incidents of exigent circumstances.</p> <p>The facility has policies and procedures and physical construction of housing areas that enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing them in a state of undress. Such policies and procedures require staff of the opposite gender to announce their presence when entering an offender housing unit. Inmates shower in private shower stalls to provide privacy and to prevent observation by staff of the opposite gender or casual observers. Based on agency staff interviews, inmate interviews and direct observation by the auditor, all staff members of the opposing gender consistently announce their presence when entering units where the probability exists that the inmate may be showering, changing clothes or toileting. The holding cells in booking are the only cells with cameras. In these cells the camera picture is blocked out with a gray box over the toilet to prevent remote viewing of an inmate in a state of undress while using the toilet.</p>

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail has a contract with Telelanguage for language and sign language interpretation. They sometimes use border patrol agents who speak Spanish. At the time of the on-site portion of the audit there were no inmates who needed assistance. The staff assist visually impaired or those with intellectually impairments by verbally going over the material or providing assistance in a manner they are able comprehend.

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>In regard to law enforcement background checks, all Bottineau County Jail correctional staff are required to be certified operators to use the North Dakota Criminal Justice Information Sharing (CJIS) system through the North Dakota Attorney General’s office. In order to gain operator status all staff undergoes a law enforcement background check. The following statement is from the Agreement for Electronic Online Access to North Dakota Criminal Justice Information Sharing (ND CJIS). “All users of ND CJIS must have been subject to a favorably-adjudicated, fingerprint-based background check prior to being granted Access to ND CJIS. This fingerprint-based background check must be renewed every five (5) years.” The Sheriff provided a signed statement verifying their requirement that all staff are certified CJIS operators. The auditor received samples of the automated generated email from CJIS that the employees five-year background was completed. The Bottineau County Jail asks the required questions within their hiring process or promotions regarding any previous sexual misconduct. Also, the newly hired or promoted employees sign acknowledging that they have a continuing duty to report. The facility has a form to be used to document that they asked a previous institutional employer specifically about substantiated allegations of sexual abuse for perspective new hires. There are no current employees with previous institutional experience.</p>

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the Bottineau County Jail policy, video monitoring systems, directly observed all areas of the facility and conducted interviews with the administrative staff. The facility considers protection of inmates and the standards when contemplating upgrades to the facility or in the application of technology. This is a newly constructed jail and utilizes modern jail design to provide clear sight lines, video monitoring and an intercom system to both monitor activity within the housing area and provide a means for inmates to request assistance. They utilize a rounds tracker system to ensure that rounds are conducted as specified by policy.</p>

115.21	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the PREA policy and interviewed administrators, the PREA Coordinator and the special agent from the Bureau of Criminal Investigation (BCI). Victims of sexual abuse have access to forensic medical exams through Trinity Hospital in Minot. The auditor spoke with the SANE nurse and she confirmed SANE trained nurses will provide forensic sexual assault medical examinations. The facility has an MOU with Family Crisis Center for advocacy services. If law enforcement responds to a sexual assault case within the jail, evidence protocol is followed, and they work cooperatively with the SANE nurse to ensure all usable physical evidence is gathered.</p>

115.22	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility refers all allegations for investigation. Investigations are completed by qualified investigators and required documentation and reporting will occur. The PREA Coordinator is the facility administrative investigator. Criminal allegations are investigated by an investigator from the North Dakota Bureau of Criminal Investigations.

115.31	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed the Sheriff, the Jail Supervisor, the PREA Coordinator and staff. Basic PREA training with staff was apparent during the interviews as staff were knowledgeable when interviewed in the required competencies such as the correct first responder response - separate, provide care, protect evidence, call for assistance, notify shift supervisor and provide a written report. The PREA Coordinator provided the auditor the PREA training documentation. Correctional Officers also complete a PREA training component at Correctional Officer Basic School. All staff signed an acknowledgment of PREA Compliance that provides the PREA standards definition of sexual abuse and sexual harassment and states that they have read and understand the jail's zero tolerance policy and the requirement to immediately report or any information or knowledge of sexual abuse or sexual harassment of an inmate. They have also signed that they have watched the PREA Inmate Education video.</p>

115.32	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail does not utilize volunteers. The only contractors are the medical staff who comes in to provide the intake physical to inmates within 14 days. The contractor is never out of the sight of a correctional officer. The doctor has completed basic PREA training, and the auditor was provided this documentation. Other medical services are provided by transporting the inmate to the local clinic or hospital.</p>

115.33	Inmate education
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail has implemented an inmate training program. The basic information is provided to an inmate during the intake process about the jail's zero tolerance policy and how to report. Inmates sign an orientation form that stated they were provided this information and a pamphlet. Within 30 days of arrival the inmates are shown a video with more comprehensive information. The facility provided signed and dated verification of this inmate education. There is also information in the inmate handbook on the kiosk and posters throughout the facility.</p>

115.34	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed the PREA Coordinator who initiates the investigative process. The administrative investigator has completed investigative training specific to investigation within a confinement setting through the National Institute of Corrections course PREA: Investigating Sexual Abuse in a Confinement Setting and provided the auditor the NIC certificate as verification of the training. If the allegation appears criminal the investigation is turned over to a BCI agent. The auditor interviewed the BCI criminal investigator and found him to be well experienced with superb skills in addressing criminal sexual abuse investigations. He has over 3000 hours of training that includes techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. All criminal investigations involving staff-on-inmate sexual misconduct would be investigated by an investigator from the North Dakota Bureau of Criminal Investigations</p>

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail does not have any full or part time medical or mental health staff. The facility contracts with a medical provider for intake physicals or utilizes community resources.

115.41	Screening for risk of victimization and abusiveness
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail completes a screening process upon intake. Staff confirmed that they are continually reassessing an inmate's status. They specifically would reassess if a referral or request was made by any staff, volunteer or contractor or if there was an incident of sexual abuse or receipt of additional information that has bearing on their risk of sexual victimization or abusiveness. The facility completes a complete reclassification check within 14 to 30 days of arrival which includes a follow-up PREA screening to ensure there is no change in the initial PREA screening.</p>

115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail has a PREA screening process and uses that along with other classification methods to determine placement within their housing unit and bed assignment. If transgender inmates are placed at the facility, those as well as all housing assignment are done on a case-by-case basis considering the inmate's own views of safety. All inmates shower separately from other offenders. The Bottineau County Jail implements appropriate controls on the dissemination of responses to screening questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the offender's harm by staff or other offenders.</p>

115.43	Protective Custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail staff typically finds alternative housing units that provide protection for the inmate without segregating or isolating them. If they needed protective custody, it would be for very limited duration and only until they can find appropriate housing. Even then for Bottineau County Jail protective custody is not isolation. They still participate in recreation and have out of cell time like everyone else. If the Bottineau County Jail restricts access to privileges, they will document the opportunities that have been limited, the duration of the limitation; and the reasons for such limitations. Offenders at high risk for sexual victimization would not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. There have been no incidents of use of protective custody to keep an inmate safe from sexual victimization. Their average population is quite low and typically all inmates are single-celled and share dayroom space within their housing unit.</p>

115.51	Inmate reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed administrators, staff, and inmates, reviewed policy and toured the facility. The Bottineau County Jail provides multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other offenders or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Staff accepts reports made verbally, in writing, anonymously, and from third parties and promptly document any verbal reports.</p> <p>The Bottineau County Jail provides at least one way for offenders to report abuse or harassment to a public or private entity or office that is not part of the jail, and that is able to receive and immediately forward offender reports of sexual abuse and sexual harassment to the jail administrators, allowing the offender to remain anonymous upon request. Offenders can call through the unit housing phone to the neighboring county law enforcement- Rolette County Sheriff's Office with which they have a Memorandum of Understanding that outlines reporting responsibility. In addition, they are provided the address to Just Detention International. The Rolette County Sheriff's Office operates a 24/7 dispatch and has agreed to provide this reporting service to the jail. The Rolette County Sheriff's Office is able to receive and immediately forward offender reports of sexual abuse and sexual harassment to agency officials, allowing the offender to remain anonymous upon request. There were some older training materials that did not have the new reporting method outlined correctly. During the time of the audit, the auditor performed a test call. However, the call required an inmate PIN. The Staff can report via any method also used by offenders and can always go directly to the PREA Coordinator, Jail Administrator, or the Sheriff.</p> <p>CORRECTIVE ACTION: The auditor required that all materials are corrected with the new external reporting method that was put in place in March 2022. The facility provided the auditor with the corrected information. The auditor required the call to the external reporting entity not require an inmate PIN so that the call can be placed anonymously as required by this standard. The facility corrected this with their phone vendor and a second test call was placed that did not require an inmate PIN.</p>

115.52	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed PREA policy, the inmate handbook, and conducted staff and inmate interviews. The Bottineau County Jail does not impose a time limit on when an offender may submit a grievance regarding an allegation of sexual abuse. They do not require an offender to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse. They ensure that an offender who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint, and such grievance is not referred to a staff member who is the subject of the complaint. They issue a final decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance.</p> <p>Third parties, including fellow offenders, staff members, family members, attorneys, and outside advocates, are permitted to assist offenders in filing requests for grievances relating to allegations of sexual abuse, and are also be permitted to file such requests on behalf of offenders. They have established procedures for the filing of an emergency grievance when the offender is subject to a substantial risk of imminent sexual abuse.</p> <p>After receiving an emergency grievance alleging a substantial risk of imminent sexual abuse, the Bottineau County Jail immediately forwards the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action is taken, and provides an initial response within 48 hours, and issues a final decision within 5 calendar days. The initial response and final decision documents their determination whether the offender is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The Bottineau County Jail may discipline an offender for filing a grievance related to alleged sexual abuse only where the jail demonstrates that the offender filed the grievance in bad faith.</p>

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Inmates have access to outside confidential support services. The facility has an agreement with the Family Crisis Center for advocacy and support services. In addition, the jail may make referrals for mental health support services if they feel that is warranted. A test call verified that inmate calls to the Family Crisis Center are free and confidential. The auditor also spoke with the Domestic Violence Center in Minot to verify that they also accept calls from the Bottineau County Jail and would provide advocacy services if the inmate were to be transferred to the emergency room in Minot for a forensic examination.</p>

115.54	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility has posted on their website at https://www.bottineauco.com/sheriff telephone numbers for third parties such as family members, friends, legal counsel or anyone else outside the facility to report an incident of sexual abuse or sexual harassment on behalf of an inmate.

115.61	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility requires all staff to immediately report any knowledge, suspicion or information received related to sexual abuse/harassment incidents, retaliation and staff negligence that may have contributed to such incidents. Staff are required to make such reports to the staff supervisor and a report is submitted to the investigator. Staff interviews confirmed their responsibility to report and to maintain that information in confidence. The PREA policy requires that outside investigators be informed when there is suspected criminal activity.</p>

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility requires all staff to take immediate action to protect the inmate from imminent sexual abuse. Administrators and direct care staff understand that “immediate” means when the response is needed - that could mean within minutes if the abuse was recent, or it could mean before the end of the shift for incidents in which an abuse was reported that occurred in the distant past.

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with the administrators confirm actions that will be taken upon receiving an allegation of sexual abuse while an inmate was at another facility. Such action will be initiated no later than 72 hours and actions will be documented. These steps were also noted in the review of policies and procedures. There have been no instances of these allegations received from other facilities.

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	A review of policy and interviews with staff verified their process to provide assistance; separate alleged victim/abuser; preservation and protection of evidence by securing the scene including that the victim does not take any actions that could destroy any physical evidence and to report immediately to the administrator.

115.65	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the section of the PREA policy related to the coordinated response plan, reviewed the MOU with the Family Crisis Center, interviewed the administrators, staff, the investigator, a Family Crisis Center staff and the SANE nurse at the Trinity Hospital in Minot. The Bottineau County Jail has a PREA policy which states that they have a coordinated response plan. The policy specifically states the various roles and who is to perform them required of a sufficient coordinated response. The intent behind this standard is to ensure that each entity responsible knows actions to be taken without causing further trauma to a sexual assault victim while providing them with the help they need. Through interviews the auditor verified that first responders know to limit their role to simply separate the abuser from the victim, taking any urgent actions that may be needed if there are emergent medical needs, protecting the evidence for the investigator and notifying administrators and/or law enforcement. Administrator's role is to immediately set in motion the coordinated response between the investigator, advocate and the SANE. The staff and administrators know to provide immediate medical care at St. Andrews, the local hospital, and to transport to Trinity Hospital in Minot for a forensic examination to be completed by a SANE.</p>

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail administrators will remove alleged staff sexual abusers from contact with inmates pending the outcome of the investigation. The facility is not restricted in any way from protecting inmates from contact with abusers.

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Sheriff and Head Jail Supervisor in coordination with the PREA Coordinator are charged with monitoring for retaliation. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation; appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include housing changes, removing contact of alleged staff/inmate abusers and emotional support services for those who fear retaliation. Interviews with the administrators, and specifically with the PREA Coordinator, confirmed her duties and responsibilities. Monitoring is required through their PREA policy.</p>

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Bottineau County Jail staff typically finds alternative housing units that provide protection for the inmate without segregating or isolating them. Their first response is to remove the abuser. If they will need to use protective custody it would be for very limited duration only until they can find appropriate housing.

115.71	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed staff and inmates, administration, and the criminal investigator. There were no documented investigations at the Bottineau County Jail to review. Through interviews with the investigators, it was determined that investigations are not terminated should the source of the allegation recant. Should criminal prosecution be considered, the investigator coordinates with the state's attorney. Polygraph tests are not used during their investigations. All written reports are retained for as long as the alleged abuser is incarcerated or employed by the facility plus five years. Investigations will not be terminated due to the departure of an alleged abuser or victim. These steps are properly documented in the PREA policy. The PREA Coordinator completes administrative investigations. Investigations include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports, which will include physical/testimonial evidence, credibility assessments and investigative facts and findings.</p>

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Both the administrative investigator and the BCI investigator are knowledgeable that the facility uses no standard higher than the preponderance of evidence in making final determinations of sexual abuse/harassment - meaning that the facility can take necessary actions when at the conclusion of the investigation the evidence leads them to believe the incident more than likely occurred (greater than 50%) regardless of the higher standard needed for referring a case for prosecution.

115.73	Reporting to inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed staff and the investigator. The PREA policy states that the PREA Coordinator shall inform a victim inmate verbally and deliver a state of findings that requires the inmate's signature. This statement will specifically state whether an allegation has been substantiated, unsubstantiated or unfounded. The PREA Coordinator provided the form setup to notify an inmate of the outcome of investigations.</p>

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed administrators, the investigator and reviewed PREA policy. Staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement, unless the activity was clearly not criminal, and to any relevant licensing bodies. There have been no reported cases of staff misconduct regarding sexual abuse or sexual harassment.</p>

115.77	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Currently the medical provider who conducts intake physicals is the only contractor. There are no volunteers. Contractors and volunteers are subject to disciplinary actions including termination for violation of facility sexual abuse/harassment policies. According to the Sheriff, should any violation of this type be substantiated; the facility has complete authority to administer remedial measures including prohibiting further contact with inmates. Contractors, or if they have volunteers in the future who engage in sexual abuse, will be reported to law enforcement agencies (unless the activity was clearly not criminal).</p>

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed administrators, staff, and inmates and reviewed policy. The facility prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred. The Bottineau County Jail does not provide counseling or therapy to address and correct the underlying reasons or motivations for abuse. If findings of inmate-on-inmate sexual abuse are substantiated, administrative sanctions will be administered following the formal disciplinary processes and applied commensurate with the level of infractions. Some examples given by the Jail Supervisor are loss of privileges and other minor sanctions for minor infractions. More serious infractions would be segregation, transfer, and additional criminal charges.</p>

	The facility has no on-site medical or mental health staff. If an intake screening indicates prior sexual abuse, the facility will ask within 14 days if the inmate would like to meet with a community medical or mental health practitioner.

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed administrators and reviewed the PREA policy. Offender victims of sexual abuse would receive timely, unimpeded access to emergency medical treatment and crisis intervention services through the St. Andrews Hospital in the community or if taken to Minot for a forensic examination, through Trinity Hospital. Mental health services are typically provided by a community mental health counselor who works at the local college. The PREA policy documents PREA requirements for access to emergency medical and mental health services. Emergency medical and mental health services are provided without charge to inmates.</p>

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed administrators and reviewed the PREA policy. The Bottineau County Jail offers a medical evaluation through community resources and, as appropriate, offers treatment to all offenders who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. The evaluation and treatment of such victims include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. Offender victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.</p>

	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The Bottineau County Jail will conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. This review will occur within 30 days of the conclusion of the investigation. The review team includes the Sheriff, the Jail Supervisor, the PREA Coordinator and the investigator. The PREA Coordinator provided the form that would be used to document an incident review. All the required questions are included on the form such as motivation, adequate staffing levels, monitoring technology and whether there are any recommendations for improvement.</p>

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Bottineau County Jail did not meet the first three-year audit cycle. However, with the audit concluded on July 12, 2019, the agency achieved compliance. This audit was originally scheduled for August which was within the cycle for their second audit. However, due to health issues with the PREA Coordinator, the auditor contracting Covid and then the facility closing due to staffing shortages from August to January, this PREA Audit was not completed as originally scheduled, but concluded on February 28, 2023. The auditor had complete access and observed operations in every area of the Bottineau County Jail. The auditor requested many documents throughout the audit process. The Bottineau County Jail staff have been very cooperative throughout the audit process. The jail provided private accommodations to conduct interviews, made adjustments to routines and staff schedules and allowed complete access to the auditor. The auditor notices were posted throughout the facility. The auditor received no correspondence or requests for interviews. The staff at the Bottineau County Jail were more than accommodating, they were extremely helpful and above-board in every interaction.</p>
